SUMMARY

Versatile UI/UX Designer working across product design and visual/brand design across SaaS, AI-driven, and enterprise platforms. Combines end-to-end product UX — research, wireframing, prototyping, and design systems — with strong visual craft in typography, layout, visual hierarchy, and brand identity. Hands-on with Figma, Adobe Photoshop, Framer, and AI-assisted design tools, with a track record of shipping responsive web experiences and engaging, on-brand creative for cross-functional teams.

SKILLS

Tools & Technologies: Figma, Adobe Photoshop, InDesign, Notion, Adobe XD, HTML/CSS, Framer, Lovable AI, Builder.io, Bolt.new, Figma make, Claude, Prompt engineer

Design Skills: Information Architecture, Wireframing, Prototyping, User Research, Design Systems, Interaction Design, Accessibility (WCAG 2.1), Documentation, Usability Testing, Journey Maps, Personas

Domain Expertise: SaaS Product Design, AI Product Design, ESG Platforms, Enterprise Applications, Workflow Optimization, Agentic AI Interfaces

Soft Skills: Problem Solving, Time Management, Collaboration (Agile, Cross-functional Teams)

EXPERIENCE

UI/UX Designer — Sustainext Digital Pvt. Ltd.

Nov 2025 – May 2026

Bengaluru, Karnataka

- Design scalable UI/UX for an enterprise ESG-management SaaS platform with Agentic AI-driven workflows, translating PRD requirements into end-to-end product experiences.
- Designed and delivered key modules — including Agentic AI and Supply Assessment systems — from concept through production.
- Produced wireframes, user flows, journey maps, high-fidelity UI, interactive prototypes, and responsive dashboards in Figma.
- Simplified complex enterprise journeys and interaction flows, reducing user friction and improving workflow efficiency.
- Conducted user research and workflow analysis to surface usability gaps and drive iterative design improvements.
- Partnered with product managers, developers, and stakeholders in Agile to align user needs with business goals while keeping designs accessible and responsive across modules.

UI/UX Designer — Bharat Electronics Limited

Jan 2025 – Nov 2025

Bengaluru, Karnataka · Contract via Quantum Asia Pvt. Ltd.

- Led end-to-end UI/UX design for confidential government and defence platforms, delivering secure, accessible interfaces focused on usability and clarity.
- Translated complex operational workflows into intuitive digital experiences in collaboration with cross-functional teams.
- Created wireframes, prototypes, and UI documentation to support development and stakeholder communication.

• **UI/UX Designer** — Nudijenu Publishers

Sep 2023 – Dec 2024

Karwar, Karnataka

- Strengthened brand identity through visually engaging, accessible design systems.

- Redesigned and launched responsive websites, improving digital reach by 30%.
- Conducted user research, wireframing, and prototyping across multiple web and service-based projects.
- Collaborated in Agile sprints with developers to ensure visual consistency and timely delivery.

Layout Artist — Nudijenu Publishers

Aug 2020 – Mar 2023

Karwar, Karnataka

- Modernised print layouts and optimised visual hierarchy, contributing to a 42% increase in NPS.
- Standardised reusable templates for future editions, improving design efficiency by 25%.
- Designed print advertisements and visuals that boosted audience engagement and supported local advertiser visibility.

PROJECTS

TrustIn News — UI/UX Case Study

Dec 2023 – Mar 2024

Bengaluru, Karnataka

- Initiated a project delivering customised regional news and job openings for readers and job seekers, generating strong public interest.
- Drove UX research through competitor analysis, empathy mapping, persona creation, and user journey mapping.
- Designed a news-feed customisation flow for a responsive mobile app in Figma — sketching, wireframing, prototyping, and user testing — within four months.

INTERNSHIP

Front-end Developer — RDL Technologies Pvt. Ltd.

Jun 2023 – Sep 2023

Mangaluru, Karnataka

- Built a responsive Smart Warehouse Management dashboard using ReactJS and Material UI.
- Partnered with the design team to improve usability and interface consistency.
- Contributed to core modules including Inventory, Product Info, and Invoicing.
