SUMMARY

UI/UX Designer with 2 years of professional design experience — plus front-end development and self-directed product design work dating back to 2023 — creating digital products across web and mobile for SaaS, AI-driven, enterprise, and regulated platforms, including ESG-management software, government and defence systems, and healthcare management software. Expert in Figma and design thinking methodology, translating ambiguous, high-level requirements into user flows, wireframes, high-fidelity UI, and interactive prototypes backed by scalable design systems, with a strong command of typography, color, layout, and visual hierarchy. Conducts user research, journey mapping, and usability testing to iterate on solutions, and is confident facilitating design discussions and presenting to product, development, and stakeholder teams — adapting quickly to shifting requirements and tight deadlines. Working knowledge of HTML/CSS streamlines developer handoff.

SKILLS

Tools & Technologies: Figma, Figma Make, Adobe XD, Sketch, InVision, Framer, Adobe Photoshop, Adobe InDesign, Notion, HTML/CSS

Design Skills: UX Design, UI Design, Product Design, Design Thinking, User-Centered Design, Sketching, Wireframing, User Flows & Flow Diagrams, Site Maps, Storyboards, Mockups, Interactive & Functional Prototyping, High-Fidelity UI, Design Systems & Component Libraries, UI Elements (navigation menus, search, tabs, widgets), Visual Design, Typography, Color Theory, Layout & Visual Hierarchy, Interaction Design, Information Architecture, Responsive Design, Accessibility (WCAG 2.1), User Research, Usability Testing, Competitor Analysis, Journey Maps, Personas, Design Presentation & Communication, Developer Handoff

Domain Expertise: SaaS Product Design, Healthcare Management Software, Web & Mobile Applications (iOS and Android), AI Product Design, Enterprise & Regulated Platforms (ESG, Government/Defence), Brand & Visual Identity, Marketing Collateral

Soft Skills: Communication & Stakeholder Presentation, Problem Solving, Adaptability & Comfort with Ambiguity, Collaboration (Agile, Cross-functional Teams), Self-Directed Ownership, Multi-tasking & Time Management

EXPERIENCE

UI/UX Designer — Sustainext Digital Pvt. Ltd.

Nov 2025 – May 2026

Bengaluru, Karnataka

- Owned end-to-end UI/UX design for an enterprise ESG-management SaaS platform with Agentic AI-driven workflows, taking key modules from concept to execution and final developer handoff.
- Investigated user experience design requirements and translated ambiguous, high-level product specifications into effortlessly simple user journeys, flow diagrams, wireframes, and interactive prototypes in Figma.
- Built and maintained a comprehensive design system and reusable component library, adhering to style standards in typography and graphic design to ensure consistency and visual quality across modules.
- Designed and tested UI elements including navigation menus, search, tabs, filters, and dashboard widgets, refining the interface to improve usability and clarity.
- Conducted user research and usability testing, analyzing insights to predict user behavior and iterate on design solutions.
- Presented design concepts, prototypes, and research findings in collaborative sessions with product managers and stakeholders to align on direction and business goals.

UI/UX Designer — Bharat Electronics Limited

Jan 2025 – Nov 2025

Bengaluru, Karnataka · Contract via Quantum Asia Pvt. Ltd.

- Led end-to-end UI/UX design in Figma across confidential government, defence, and healthcare management platforms, delivering accessible, user-centered interfaces focused on usability and clarity.
- Designed the UI for a healthcare management software module, applying user-centered design principles to make complex administrative and operational workflows intuitive for a range of end users.
- Translated complex, often ambiguous or evolving operational workflows and requirements into intuitive web experiences, working closely with cross-functional product and development teams.

- Produced and maintained wireframes, user flows, high-fidelity mockups, and interactive prototypes that guided development effort through to delivery.
- Presented design solutions in stakeholder reviews and supported developer handoff to ensure the shipped product matched design intent.

UI/UX Designer — Nudijenu Publishers
Karwar, Karnataka

Jun 2024 – Dec 2024

- Designed and launched responsive websites with strong typography, color, and layout, improving digital reach by 30%.
- Conceptualized a comprehensive UI/UX strategy for the brand, strengthening visual consistency through accessible design systems and reusable components.
- Conducted user research, competitor analysis, wireframing, and prototyping across multiple web and service-based projects.
- Developed graphic elements and on-brand visuals aligned with brand guidelines and visual identity standards.

PROJECTS

TrustIn News — Mobile App UI/UX Case Study
Bengaluru, Karnataka

Dec 2023 – Mar 2024

- Designed a mobile app in Figma for iOS and Android delivering customized regional news and job openings, owning the product from concept to tested prototype within four months.
- Created the news-feed customization flow end to end — sketching, wireframing, high-fidelity mobile UI, interactive prototyping, and usability testing.
- Designed mobile navigation patterns, tabs, search, and card components in line with platform interaction conventions and accessibility standards.
- Drove user research through competitor analysis, empathy mapping, persona creation, and user journey mapping, grounding interface decisions in real user behavior.

INTERNSHIP

Front-end Developer — RDL Technologies Pvt. Ltd.
Mangaluru, Karnataka

Jun 2023 – Sep 2023

- Built a responsive Smart Warehouse Management dashboard using ReactJS and Material UI, gaining hands-on understanding of frontend development workflows.
- Partnered with the design team to improve usability and interface consistency, bridging design and implementation.
- Contributed to core modules including Inventory, Product Info, and Invoicing.

CERTIFICATIONS

- UI/UX Design — Information Technology Learning Hub
- Emotional Design — Interaction Design Foundation (IxDF)
- Dynamic Web Design — Interaction Design Foundation (IxDF)
- Project Management Foundation — LinkedIn Learning
- Advanced Diploma in Computer Applications — KEONICS

EDUCATION

Master of Computer Applications — The National Institute of Engineering, Mysuru
Cumulative GPA: 7.53 / 10

2021 – 2023

Bachelor of Science — Government Arts and Science College, Karwar
Percentage: 66%

2018 – 2021
